Dear Sulawesi tsunami survey members,

I have finished revising the manuscript and preparing the response letter.

Please find the attached files and if you have some comments, please let me know by the 24th of May (revision due is set to this day). Also please check your name and affiliation again.

Regards,

Mikami

Dear Mikami,

The comments are not so complicated. However, I suggest to delete the sentence regarding the paper submitted to Scientific Report (Aránguiz et al 2019) since it is still under review and due to internal problems, a new editor has been assigned and it will take even longer time to be published, unfortunately. Nevertheless, it would be better that way, due to the fact that the current field survey data are used in that paper and we can cite the present one.

Rafael
