Hi Dr

Please find attached review results of your paper.

Reviewer 1

The article discusses an interesting topic which might contribute to the understanding of the use of recitation method in teaching Islamic education. However, there are some issues that should be improved to make the article contribute to academia and practice. First, the author should discuss why the study should be conducted in the introduction section because if there is no reason, then a study should not be conducted. Second, make clear definition of cognitive ability in the literature review section. Third, separate and discuss of each step of recitation method implementation, do not discuss just in one paragraph. Finally, check typos and grammatical errors.

Review 2

Regarding the interesting of the study, I suggest the author to make clear definition of recitation method in context of Islamic education. Then, discuss the contribution of the study to academia and practice world in the final section of the paper.

I look forward to hearing from you.

Regards,

Editor

Hi Dr

Please find attached review results of your paper. After careful consideration by the reviewers and the Editorial Board, I am very pleased to inform you that your paper has been accepted for publication without any correction. You may proceed with the payment of your paper using the details attached with the review results and forward a copy of the payment slip to us, if you want your paper published as soon as possible. Please note that the payment excludes bank charges.

In addition, also include your postal address in the revised paper if you paid for a hard copy to enable us send you the hard copies of the journals as soon as possible.

Please note that we have launched our new website: visit <https://eajournals.org/>

I look forward to hearing from you.

Regards,

Editor
